

# Info for New Employers in WY

## Each Employer is Required to do the following:

### 1 Register with the IRS

**Form SS-4**, Application for Employer Identification Number (EIN), must be completed and submitted to the IRS. See “How to Get an EIN”.

### 2 Register with Wyoming

**WY1C1WC–Business Registration form** covers Unemployment Insurance and Worker’s Compensation.

**Unemployment Tax** Employers who only employ their spouse and/or children under 21 years old are EXEMPT.

### 3 Obtain Mandatory Insurance Coverage for Employees

**Disability Insurance** policies are not required.

**Workmen’s Compensation** insurance is required for most employees except for certain relatives living in the employer’s household and officers of the corporation. Call (307) 777-6763 for more information.

### 4 Requirements when Hiring Employees

**Form I-9** must be completed by each employer and employee to determine employee's eligibility to be hired.

**Form W-4** must be completed by each employee to determine the marital status and exemptions claimed. Employee is allowed to claim a different marital status for purposes of withholding only. If employee claims more than 10 exemptions, this information must be reported to the IRS.

**Report New Hire or Rehires** Employers must report all new hires within 20 days of the employees first day on the job. W-4 or **State of Wyoming New Hire Reporting Form** can be faxed to 800-921-9651 or can be filed

online at [www.wy-newhire.com](http://www.wy-newhire.com). Be sure that form W-4 shows the employer information. If you use a payroll processing company such as Paychex, they will report your new or rehires to WY.

### 5 Withholding + Paying Taxes

Once wages are being paid, employers are required to withhold from their employees' paychecks various taxes and pay them to the IRS periodically. The employers are also required to file, quarterly and annual reports with the IRS. In addition, the employers are subject to various taxes on those wages which must be paid to the IRS. Taxes withheld from employees are treated differently from taxes owed on income. **There are severe penalties for not paying them on time and the liability survives bankruptcy.** Therefore, employers should make sure that the payroll taxes are set aside for payment. Since Wyoming does not have State Income Taxes, there is no withholding for it.

### 6 Payroll Processing

Because of the complexity and potential penalties involved with processing payrolls, we highly recommend that employers use a payroll processing company such as PayPath, ADP, Paychex or another to process payroll. We do not provide this service. Over the years we have established an excellent working relationship with Paychex and we recommend them. One advantage for you is if you need service, we can contact our Paychex representative for help. Please call us for the name and phone number of our representative.

**Final word** If the above seems daunting, call us and we can help you with filling out the forms.
